I am glad to help a little in giving poor mothers and their children what they need so much in their summer outings."

One woman and her friends in Cleveland Park collected all the large freezers in the neighborhood and made and sold ice cream and cake. Besides the happy time they had, \$100 was realized. WISDOM SKILL HONESTY

Three essentials of good destiny, with-
out which, no man can
be successful.

"Wisdom consists
of knowing WHAT
to do; skill in knowing HOW to do it; and
character in doing IT. I have found during
all these years that it pays to give
people better service than they really expect
and charge them less than they expect
to pay."

LIFE INSURANCE FIRM GIVES LIBRARY TO U. S.

Documents and Data Said to Represent 90 Per Cent of World's Health Literature.

The Prudential Life Insurance Company has made an unconditional gift of its large library to the United States surgeon general's library. The gift has been approved by Secretary Weeks of the War Department and Maj. Gen. M. W. Ireland, surgeon general of the Army.

This donation for the use of the public health service of the country marks an important step in the concentration of valuable statistical information for public use, it is declared. The library includes countless reprints, articles and clippings on medical and related subjects collected by Dr. Frederick L. Hoffman, who has been the Prudential statistician for thirty years or more.

It is said that the collection of books, documents and data is estimated to represent about 90 per cent of the entire public health material for the civilized world, representing between fifty and one hundred thousand volumes and publications, and as far as practicable, the series of official reports is historically complete.

The library is arranged on the subject-index plan, readily accessible. General reference will be extended by the surgeon general's library to students and others in search of information usually out of reach of the general public.

The books will be transferred gradually to Washington for registration on the main floor of the general public.

DISTRICT BAD-CHECK BILL PASSAGE BEING URGED

Maryland and Virginia Business Men Join in Pressing Congress to Act.

Members of the District committee in both House and Senate find themselves hard pressed to push the bad-check bill for the District through before the adjournment of the House. This pressure is coming from nearby Maryland and Virginia business men, as well as from the District merchants.

It has been brought to their attention that in a recent conference between representatives of the House and Senate only one of the six conferees, Senator King of Utah, objected to a favorable report. Representative Fred N. Zihlman, in response to solicitations from some of the biggest business men in Baltimore, who are "deeply interested" in this legislation, said last night that he will make every effort possible to have this measure passed. He believes that this may be done before the adjournment scheduled for Friday next, because this measure is so close to final action.
